

6-12084

A JOINT DEVELOPMENT by Jack Yaggi, center, and Art Neeley, right, brought them a \$1 patent application letter recently from C. E. Center, vice president, Union Carbide's Nuclear Division. P. E. Wilkinson, Metallurgical Development, at left, makes the presentation in brief ceremony in his office. The Yaggi-Neeley development was entitled "Improved Sintering Furnace."

6-12092

EDWIN F. GAMMON, METHODS TESTING LABORATORY, is seen (center) receiving a \$1 patent application letter from G. A. Strasser, Superintendent of Technical Services. W. T. McBryde, department head, looks on from the left. Gammon's development was entitled "Radioactivity Smear Sampling Method and Apparatus."

UT Grad School Lists Summer Work

The Oak Ridge Resident Graduate Program of the University of Tennessee has announced its summer curriculum.

Summer quarter courses to be offered are:

MATHEMATICS 425 Brief Course in Complex Variables. Monday-Thursday, 5:30-6:45 p.m.

PHYSICS 643 Advanced Topics in Quantum Theory. Tuesday-Thursday, 5:15-6:30 p.m.

Registration is scheduled for 6-7:30 p.m. next Monday, June 15, in the ORINS Training Building, Room 18. All registration and payment of fees must be completed by June 23.

Probable Fall quarter courses to be offered in Oak Ridge include: Bacteriology 563; Chemical Engineering 582; Chemistry 416, 571; Mathematics 415, 451, 454; Metallurgical Engineering 591; and Physics 321, 371, 451, 452, 461, 521, 561, 643, 661 and 671.

Block Heads Physics Seminar For Friday

Robert C. Block, Oak Ridge National Laboratory Physics Division, will conduct their seminar this week on "Research with the 30 MeV Electron Linac at Harwell."

Set for 3:15 p.m. Friday, June 12, it will be held in the East Auditorium of ORNL's 4500 building.

Parking Lot Problems Being Attacked By Y-12 Management To Alleviate Snarled Traffic Flow

The complex problem of parking, entering and leaving the plant has long been a source of concern to Y-12. There is probably no one design or layout possible to meet the needs and desires of all employees. The lots, from East Portal to Bear Creek Portal, are all designed, however, to permit adequate space per auto and to provide proper flow of traffic, all within the generally accepted standards of parking and traffic flow.

Engineering, plant management, and other interested plant groups are constantly looking for means to improve the traffic situation.

North Portal's recent revamping and remodeling was just one example of the constant interest in the problem.

Studies are again being made on each of the five parking lots for Y-12ers' use. But time-studies, engineering, and well-laid plans cannot accomplish the desired ends alone. It takes human co-operation . . . the key to which, of course, is courtesy.

A serious accident recently occurred near North Portal shortly before 8 a.m. when a driver changed lanes and struck another vehicle. Both autos were heavily damaged; and fortunately no serious injury was incurred, but very well could have been.

Several instances of bumped fenders, frayed tempers, and edgy nerves only accentuate the problem.

Illegal Park Is Concern

Illegal parking is one concern in all five parking lots. The center section between lanes is for pedestrian use . . . yet the accompanying photographs show many of the sections blocked by cars which have been parked over the line. Backing into a lane is also against regulations. While this may give the driver a temporary advantage in getting out at shift change, it may also gum up the works for other drivers, and, in the end, delay everyone concerned, including the backed-in drivers.

Parking at the sidewalks to pick up passengers has long been frowned on, but is still frequently observed. (There is a pick-up lane on Bear Creek Road at the North Portal for this purpose.) If car pool members are late arriving, wait in your parking lane until they get there . . . then pull out into the main stream of traffic. This is only fair to the other travelers, and a lot safer for you.

Regulations governing the parking lots have been set up to meet the needs of the greatest number of people possible. They cannot be the best for every individual, and, therefore, will be unpopular with some employees. But they must be observed for the overall good of every employee.

The parking problem is being attacked from three fronts . . . physical design, education, and control or enforcement. It will take the cooperation of every Y-12er to help alleviate the aggravating problem.

★ ★ ★ 6-11964 ★ ★

OVER-PARKING OR CROSSING THE LINE fouls up the pedestrian, as the middle aisle is reserved for his use. This keeps him from the flow of traffic and eliminates the danger of his being hit. (As you can see, a fat person would have difficulty getting through the above lane!)

8-11963

WIDER ENTRANCES HAVE BEEN PROVIDED for the two roads into Y-12's North Portal, and lights are now operational at the portals. This picture was made from Bear Creek Road, looking into the north entrance (near Biology's entrance). The first two cars in the foreground are illegally parked, being backed into the lanes.

Lazar Leads Seminar For Thermonuclear Group

Norman H. Lazar, Thermonuclear Division, et al, will conduct this week's TD seminar on "Exploratory Plasma Physics." It will be held tomorrow, Thursday, June 11, at 9 a.m.

The seminar is set in the TD Conference Room, Building 9201-2.

AMERICA ON WHEELS

The automobile manufacturers in this country are truly American-owned. More than 1.7 million Americans own stock in car-making companies.

EARLY STARTER

Union Carbide Corporation has been an active participant in the nation's nuclear energy program since early 1943.

Glamour Model Photos Are June Competition

The Carbide Camera Club announces its competition for June as black and white and color of pictures taken during the "glamour" modeling sessions.

The Club recently voted to purchase more equipment for the studio (boom lights, diffusers for the lights, back drop paper, and barn doors.) An amendment was also passed allowing temporary employees to become members on a pro-rated basis according to the length of employment, with a \$1 minimum membership charge.

MALE SERVICE

At Union Carbide's Institute plant a letter addressed to "Miss 36-22-37 Steno" reached its proper destination without delay. Good male service, eh?

Off-Springs Bring More Kudos Home To Y-12 Parents

Many Honors Reaped By Tucker Daughter

Is Halls High
Grad For 1964

Connie Gayle Tucker

The attractive daughter of Mr. and Mrs. A. D. Tucker (he's in Y-12's Guard Department) has graduated from Halls High School with a multiplicity of honors. An honor student all four years of school, Connie Gayle Tucker, is finishing school with an overall average of 3.89.

In her second year of school she was chosen Miss Home Economics. In her junior year she was chosen for the English Award, the Chemistry Award, and was society editor of the Red and White, the school paper.

Her final year of school saw Connie reaping more honors as she was pianist for the advance chorus, co-editor of the 1964 Hi-Lite, the school annual, the recipient of the Best Typist of the Year award, and was chosen by classmates of the Senior Class as the Most Dependable and possessing the best personality.

Connie was a member of the National Thespian Society all during her high school career, and a member of the National Honor Society her last two years in school. Wow!

The Tucker home is at Route 2, Knoxville.

Kay Derryberry Rodgers

Y-12 Summer Student Graduates From TPI

Kay Derryberry Rodgers
Reaps Many Honors

A familiar summer student employee in Y-12 graduated from Tennessee Polytechnic Institute, Cookeville, June 5. She is Kay Derryberry Rodgers, who has worked in Radiation Safety and the Finance and Services Division for the past four summers.

Kay was valedictorian of her senior class from Kingston High School, reaping her share of honors while there. A member of the Beta Club, she took the Daughters of American Revolution award while at Kingston, was a delegate to Girls' State, won the Elks Scholarship Award, the English Medal, and performed in the Kingston High band.

At TPI Kay was a member of Sigma Tau Delta, honorary English fraternity, was listed in Who's Who in American Colleges and Universities, won the Daniel Memorial Scholarship Award (\$500) and a work scholarship for the years, 1960, 61, 62 and 63.

The honor student is the daughter of Coach and Mrs. Reeves Derryberry, Kingston, Tennessee. Her husband Jimmie Rodgers is a senior at TPI, and the son of Mr. and Mrs. E. J. Rodgers (Y-12's Research Services, Building 9201-1.)

Jo Anne Johnston To Enter TPI

Jo Anne Johnston

Jo Anne Johnston, daughter of Mr. and Mrs. Jesse Johnston, graduates from Powell High School this month, and plans to enter Tennessee Polytechnic Institute in the fall.

Her father is in Beta Four's Heavy Machine Shop, and the Johnston home is 4509 Crestfield Road, Knoxville.

Muerth Daughter Is Peace Corps Worker

Jayne K. Muerth

Y-12 proudly boasts another daughter in the Peace Corps, as Jayne K. Muerth recently arrived in Bolivia, South America.

Jayne is the daughter of Mr. and Mrs. William J. Muerth, 536 Margrave Street, Harriman. Her father is in Beta Four Forming.

The Muerth daughter completed a three-months' training period with 23 other candidates for the Peace Corps. They all plan to work in public health and sanitation while in the South American country. Two months of the instructions were spent at the University of Washington, Seattle. There the more academic parts of training were accomplished. The last month was spent in Peace Corps field training camps in Puerto Rico. There the techniques of survival and the exposure to unusual situations were presented.

Jayne is a graduate of St. Louis University, holding a BS degree in psychology from there.

Miller Son Enters Drafting College

Gary Lee Miller

The O. D. Miller family (he's in the Stores Department) recently saw their son, Gary L. Moore, off to the Draughtons College of Drafting, Nashville.

Young Gary graduated from Central High School, Wartburg, May 7.

Airman Whaley Is On French Duty

A/3C Ralph Monroe Whaley

Introducing Airman Third Class Ralph Monroe Whaley, young son of Hansel Whaley, Beta Four Machine Shop.

Airman Whaley is now stationed in France with the Medical Division. He is a graduate of East High School, Knoxville, and entered the Air Force the same month he graduated. He is hoping to receive his second class stripe soon.

The Whaley home is at 4033 Alma Avenue, Knoxville.

Wylie Daughter Is Ridge Graduate

The 18-year old daughter of the George W. Wylies (9212 Shops) graduates from Oak Ridge High School this month.

Lynne Wylie, blending her natural good looks with a pleasant personality, is undecided about college at the present.

The Wylie home is at 107 Packer Road, Oak Ridge.

FRENCH VISITOR

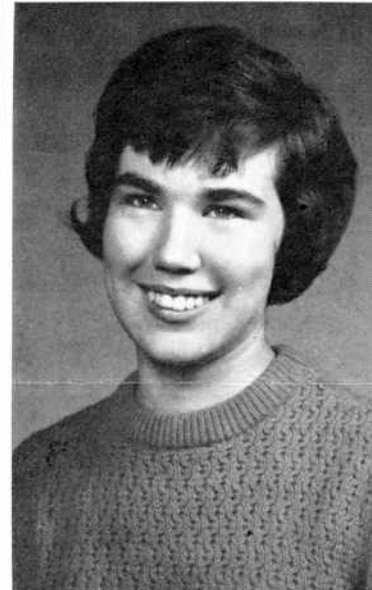

In 1824 the Marquis de Lafayette, French hero of the American Revolution visited each state in the United States ... 24 at that time.

Lynn Wylie

Young Scienceers Set Mississippi Quarter

Albert Daughter Is
Chosen For Seminar

Kendrick Albert

Kendrick Albert, a student at Harriman High School, will attend the four weeks Scienceers Camp at Mississippi State University this summer. She is one of a group of 80 junior students selected from various high schools showing especial proficiency in the sciences. Bases of selection were grades, standard science achievement test composite scores, and the rate of the sponsoring committee composed of the student's principal, English, Math and Science teachers.

The 80 science oriented juniors will be divided into four groups of 20 each for study and work in rotation with researchers and teachers from 20 departments in each of the four project areas: biological, agricultural, physical, and engineering sciences, and will receive instruction of freshman and sophomore college level. The program, supplemented by field trips, special meetings, seminars, conferences, and lecture discussions by resident and visiting scientists, offers contacts and education experiences beyond those normally available in high school.

The Young Scienceers activities will be coincident with part of the regular Mississippi State summer session, and they are invited to participate in the recreation program provided for regular summer students on campus and in adjoining Starkville.

Kendrick, who is 16, is the daughter of Edna Jean Albert, Purchasing.

Only Three Years In High School!

Sandra Smallwood

The G. D. Smallwood family took recent pride in the graduation of their daughter Sandra from Roane County High School. There isn't too much out of the ordinary in graduating from high school, but Sandra made it a little out of the norm. She graduated in three years!

Sandra plans to attend the Knoxville Business College this fall.

She managed to keep up grades, too, even though her schedule got a little crowded at times.

The Smallwoods live at Route 2, Kingston. They have another child ... a son Mark in the ninth grade. Mark took a blue ribbon recently in the Roane County High Science Fair for his exhibit.

The proud parent is in Y-12's Buildings, Grounds and Maintenance Shops.

The dainty Queen Anne's lace, the intricately formed white flower native to the fields of Tennessee, is quite lovely to behold. We hate to be the one to tear down idols, but natives call this pretty plant "Chigger Weed," and it is supposed to abound in the venomous little critters.

Out among the chiggers are many Y-12ers. First, let's start in

TECHNICAL SERVICES

The Laboratory reports **Jim Miller** and family vacationing recently in Louisville, Kentucky.

Off to see the bull-fights in Mexico is **Ozell Ward**, with intended stops in New Orleans, Houston and all along the Gulf Coast . . . **Daisy Ward** promised some pixes of the World's Fair . . . ain't seen nary a snapshot yet.

Vacationing recently to visit her sister was **Nell Cannon**. Her sis, Dr. Marci Cannon is serving her residency in Norfolk . . . and ten times prettier than Dr. Kil-dare!

Dianne Spears

Hasn't a girl any privacy at all, these days? Here little Dianne Spears is seen in her bubble bath. She is the two-year-old daughter of **J. D.** and **Joyce Spears** (he's in Statistical Services . . . and is currently in A-2 Wing of 9212). The picture was made about a year ago.

Confidence is that quiet, absolutely assured feeling we have just before we fall flat on our face.

INDUSTRIAL RELATIONS

The Fire and Guardsmen report vacationing: **M. R. Braden**, **J. B. Quinn**, **F. L. Roberts**, **L. W. LaRue**, **H. L. Wolfenbarger**, and **A. G. Hardwick**.

Recreation's **R. T. Cantrell** and Catherine saw fruits of their labor last week, as son Bob graduated from Oak Ridge High School (he enters Georgia Tech this fall) and daughter Mary Juanita graduated from East Tennessee State University (she enters the state of matrimony next month). Bob had to take off a couple of days in order to get to both graduations.

Safety's **Darlene Hunnicutt** vacationed recently around her home.

Training's **Ralph Pearson**, his wife and daughters, are vacationing, camping out in the Myrtle Beach area.

We have never understood why the big problems can't come at . . . say about 17 . . . when we know everything!

MATERIALS & SERVICES

The Office recently said goodbye to **Sandy Stephens**. Good luck, Sandy, and a good job reporting for M&S folks . . . Mar-

garet Park has moved up to do the work, so call the news to her.

Microreproduction and Engineering Services have **Clyde Clower** and family recently in Cincinnati, where he attended a bowling tournament . . . **Lucille Spence** is vacationing at her Kingston home for a couple of weeks.

Reproduction reproduces news that **Ray Stewart** and his family vacationed in Joliet, Illinois.

Plant Records wishes to welcome in **Susan Yearwood** for the summer . . . **Ernest Duncan** and family vacationed recently in Indiana.

It costs more today to entertain a child than it once did to educate his father.

MAINTENANCE

Electrical welcomes **Mary Moore Lay**, who transferred in from Security . . . **T. J. Anders** has turned the old jalopy toward Ft. Worth, Texas and a visit with four little cowboys, who also happen to be his grandchildren . . . **B. W. Ivy** has decided it's time for him to go West also, so it's off to Apple Valley, California, and a stop at Las Vegas and other points of interest along the way.

The Pump Shop sends get well wishes to **J. W. Webb**, confined to Ft. Sanders Presbyterian Hospital, Knoxville.

B. M. Adkins is enjoying a little fishing, while **A. C. Harrington** is just laz'ing around home . . . **A. E. Morton** has headed south to a favorite spot in Florida, and **C. R. Sharp** journeyed in the opposite direction to Massachusetts and West Virginia for to see his grandchildren.

The cost of living is just about as it used to be . . . if you care to live like they used to!

The only thing kids these days wear out faster than shoes are teachers.

METAL PREPARATION

Up in the 9212 Shops, **Harold Cornell** is looking forward to spending a week with his daughter who is flying in from Warrensburg, Missouri. They plan to go up around Roanoke, Virginia, for mountain flowers . . . then spending the rest of his time up at Gatlinburg at that air cabin.

P. L. McGinnis sez he is going to take throttle in hand and spend a week 20 miles out on Ft. Loudon Lake! . . . **L. L. Bridges** is vacationing, working around the house, getting tanned up in preparation for the sunny clime of Florida next month . . . **J. Fred Spradlin** is vacationing, again.

Others resting up from their labors include **L. L. Ellis**, **W. H. Hickman**, **E. J. Vickery**, **L. R. Chambers**, **Fred Tallent**, **E. F. Pugh**, **J. T. Roberts**, **J. R. Taylor**, **D. A. Davis**, **O. J. Oaks** and **T. H. Cordle**.

From F Area and H-2 it's told that **C. A. Boyd** is trout fishing this week . . . **Homer Park** and **Morris Dupee** are taking one week and **J. C. Duff** is taking two.

H. J. Nelson is back from Beta Four . . . **R. R. Galford** took a

week's vacation to remodel his bathroom and then go to the Louisville Bowling Derby in Kentucky. **A. J. Blay** went to Indianapolis last weekend to see the "500" trials and said he averaged 38 miles to the gallon. (He must have walked.)

J. E. Reagan is vacationing visiting his mother . . . **J. L. Scott** and **E. H. Proise** are vacationing, but nobody was quite sure where . . . **C. A. Moore** will be off golfing most of the time . . . **J. F. Chapman** is off for two weeks. He said that he had plenty shade and a new hammock. So you can figure out what he did.

W. R. Tipton vacationed for two weeks . . . first he was gonna do some home remodeling and he and the boys were planning a fishing trip.

E. H. Giles has a full two weeks on his hands . . . he will be baby-sitting so that his mother may take a long deserved vacation . . . Eugene said that any help from an experienced baby sitter would be appreciated . . . **F. H. Pitzer** and his wife went to Washington, DeeSee and Beckley, West Virginia.

Ruth Young joined the Hikers on a long hike to Cheoah Bald in the Smokies . . . she did alright until she got tangled up in a sleeping bag.

Beta Four reports vacationers **B. D. Duncan**, **M. H. Lee**, **H. Y. Norwood**, **N. B. Parks**, **R. F. Phillips** and **J. W. Shipley**, tearing off in all directions.

On the sick list are **J. D. Francis**, **G. R. Goins** and **J. L. Henry**.

Jim Nevils got so disgusted with his old fishing spots he just went to town and fished on the sidewalk. He did so well that he's asking all his fishing buddies to join him!

"Cuz" **Redmon's** car wouldn't start the other night and he had to be started by another car. Now that's alright, but "Cuz" has always sneered at the particular car that gave him a helping hand. Reporter Morris said his asking **C. E. Brown** for help in getting a car started is like Goldwater asking Johnson to vote for him.

Many an opera singer with pear-shaped tones has a figure to match.

That's about it, thank goodness.

Sunday, June 14, Is Flag Day . . . Fly It!

Sunday, June 14, is Flag Day. Proudly display the Stars and Stripes at your home. The banner itself is a thing of beauty . . . and the ideals behind it make it hallowed indeed. In these sophisticated, blaise days patriotism seems a little out-moded and passe . . . but we still like to

Something For Everybody!

Madama Butterfly Highlights Festivities As Oak Ridge Presents 4th Annual Pageant

David Belasco's hauntingly beautiful story of the Japanese Geisha from Nagasaki, set to some of the world's most thrilling music will highlight this year's Oak Ridge Festival, already in full swing. Puccini's immortal "Madama Butterfly" will be staged June 25 and 27 at 8:15 p.m. at the Oak Ridge High School Auditorium.

Starring in the classic tragedy will be Kay Hamrick, daughter of C. W. Mason, Research Services. Kay's beautiful soprano voice is well-known throughout this area.

Other Tastes

If opera is not your cup of tea, the Festival surely has something for your taste on tap . . . from hootenanneys to Dixieland jazz to classic films . . . to rollicking stage comedies . . . to puppet shows . . . magicians' acts . . . sidewalk art shows . . . to craft displays.

Friday, June 12, at 8:30 p.m. to 12 at the Oak Ridge Country Club will be seen Don Hamner, pianist . . . and El Bardo (Y-12's own Elbert B. Lockhart) in feats of magic.

This week's play (June 12, 13, 19, 20 at 8:20 p.m. . . . June 14, 21 at 8 p.m. at the Playhouse) is "A Shot in the Dark," Marcel Achard's witty, rollicking comedy on murder. Y-12's Milt Carey has an important role

splitting story of a maid and murder.

From now through June 17 in the afternoons and nights will be "Art and the Atom" an outstanding contemporary oil painting show at the Oak Ridge Art Center. Done by eight outstanding artists from Taos, New Mexico, the show displays oils from the atomic influence.

There will be a sidewalk art show June 21 through June 28, in which some Y-12ers' works will be exhibited. These popular

think there are citizens who care. And, better still, fly it in your heart every day. It will make you a better person, more aware of the multitude of blessings that this land of good bestows upon you.

The Elks Club is planning special Flag Day services at Blankenship Field Sunday.

shows are always a must during a Festival.

Classic Movies

Outstanding movies have been booked for showings at the Jefferson Junior High School Auditorium. On next Tuesday, June 16, Sidney Poitier, Academy Award Winner, will be seen in the role that made him a Broadway star . . . and the following Tuesday, June 23, will feature Humphrey Bogart, Sidney Greenstreet, Peter Lorre and Mary Astor in "The Maltese Falcon," one of the great thrillers of all time.

On Thursday, June 18, at 8 p.m. in the Alexander Hotel Ballroom there will be an All-Out Hootenanny with outstanding folk singers of this area playing and singing (and picking, of course) ballads of the region.

On Friday, June 26, at 8:30 p.m. until midnight there will

be Dixieland Music on three pianos . . . featuring Don Cowen, Phil Rueff, and Jack Cowen, Y-12's Electrical Engineering. Bob Hall will accompany the three pianos on his guitar.

Incidentally, when you're by the Oak Ridge Art Center, don't forget to check J. N. Turpin's beautiful light fixture in the lobby. A permanent addition to the Center, the prism, stained glass creation is a thing of beauty. (Turpin is in Y-12's Arc Melting.)

The Festivals get bigger and better every year, offering something for everybody, and the Fourth Annual Art Festival is no exception. The well-rounded program extends from June 7 through the 28th.

Many Participate

The cooperating organizations staging the Festival include the Oak Ridge Arts Council, the Oak Ridge Civic Music Association, the Oak Ridge Community Playhouse, the Oak Ridge Community Art Center, the Technical Societies Joint Council, the Oak Ridge Junior Chamber of Commerce, and the Oak Ridge Cosmopolitan Club.

Possibly you won't be able to catch everything on the Festival, but whatever is missed will be your own loss, since every feature looks worthwhile.

Car pool members wanted from Merrywood, Wedgewood Hills Bluff area, Knoxville, to North Portal, straight day. J. E. Simpkins, plant phone 7-8093, home phone Knoxville 584-2888.

Playhouse Holds Final Try-Outs Sunday At 2

The Oak Ridge Playhouse will hold try-outs for the final play of the season Sunday, at 2 p.m., June 14. The comedy "Take Her, She's Mine" calls for 12 boys and girls between 16 and 20 and six men and one woman 35 or over.

Auditions are open to the public and Playhouse officials are inviting all college students in Oak Ridge for the summer to attend the tryouts and get acquainted with theatrical doings in town. "Take Her" will open on June 24 for six performances. Rehearsals will begin immediately after the roles are assigned. Backstage crews will also be welcomed at the try-outs Sunday.

Shift Group Going Fishing At Norris

Fair skies beckoning, E, F, G, H and J shiftfolks are looking forward to their big Rodeo at the Starlight Dock, Norris Lake Saturday, June 13.

Fishing will be from 5 a.m. until 5 p.m. and there are prizes for all kinds of fish.

PRESENTING THE BRAVE Y-12ERS who recently crossed 'o'er the mountain' in vintage A Model cars. Seated in the front row, from left, are Kellye Denise Ford, Lance Packard, Jeffrey Ford, and Dale Holt. Seated behind the children is Dorothy Ford. In the third row are George Ford, Joyce Packard and son, Betty Greenstreet and Norma Jean Smith (in front.) In the rear are C. E. Packard, Bill Greenstreet, Grady Smith, Lois and J. R. Wells. The crowd all drove over to Cherokee during Memorial Day holidays in 30-year old cars! Ford says his '29 A Model made it in high gear via Newfound Gap! Below is Ford's auto.

Old Car Enthusiasts Cross Mountain Again Memorial Day

A group of Y-12ers chose Cherokee, North Carolina, for a long week-end spot over the recent Memorial Day holiday. Nothing unusual about that . . . but they chose to cross the mountain in cars almost as old as themselves!

As a matter of fact, George Ford did cross the Smokies in a car that is the same model as he.

A total of 39 A Model Fords showed up for the festival, with drivers from Tennessee, South Carolina, North Carolina and Georgia. Friday and Saturday, June 12, 13, many of these cars will be over on the Mall in Knoxville for public display.

Ford (George, that is) said a 1941 A model showed up at Cherokee. Before somebody calls the Bulletin Office and says they didn't make A models that year, this one was special-made for Henry himself, and was at Cherokee recently.

Roughest Car In Show

The Ford car (George, again) took the trophy for the roughest

car in the show. George says he drove across the Smokies in high gear. Coming along this year also were the Grady Smiths, no newcomers to the old-car fans, the J. R. Wellses, the Bill Greenstreets and C. E. Packards (another likely name for a car fiend!).

The Packards drove a 1931 sedan . . . and the Smiths took their handsome 'town and country' Model A.

Now the car enthusiasts are working up a lather over the big A show . . . billed as the Greatest 'A' Show on Earth . . . coming up at the Maryville American Legion Fairground, July 3, 4, 5 and 6. There will be over \$1,500 in trophies to be given away to the ancient car-holders. Registration is still open, so if you would like to enter your relic car, just get in touch with any of the above.

Biggest In History

In conjunction with the Hill-billy Homecoming, the car show promises to be the biggest in his-

Slo Pitchers See Atoms Still Afront

Season's First Half Is At Midpoint

The Slo Pitch Softball League approached the mid-point in the season's first half last week with action galore at Pinewood.

The opening guns Monday saw the Bat Boys triumph over the Dispatching Rebs 17 to 6 . . . as the victors tallied 23 hits from the arm of Roberts. Campbell poled a long homer . . . Butturini did ditto for the losers.

A closer tilt came second Monday as the Big Shops edged by the Lucky Ten 12 to 11. Manning tripled for the winning team . . . Blanton for the losers.

Peons Beat Big Shops

Monday's action finished as the Peons demolished the Big Shops 25 to 3, proving a double-header demands a lot of steam from a team. Cheek homered twice for the city-slicking Peons, Roe and J. D. Collins each homered once. For the Big Shops it was Law with a four-bagger.

The first game Tuesday fell by the forfeit route . . . as the Atoms took an automatic 7 to 0 win from the Cherokees.

The Eagles clawed their way to victory over the Gophers in Tuesday's second scheduled game, 16 to 7. Koons and Pridgeon were the homer heroes for the victors, Hull got one for the losing combination.

Eagles Win Big

Y-12's Eagles showed further mettle Tuesday by clobbering the K-25 Instruments 38 to 7. Dykes and Koons got two homers, Jenkins, Pridgeon, Bell, Reber and Watts all got one apiece. Howard poled one for the losing team.

Y-12's Mets opened Wednesday's play by defeating the Lucky Ten 13 to 1. No long homers were accomplished, but Carden tripled for the Mets, and Farris did likewise for the Ten.

The Big Shops rallied from disaster earlier in the week by edging by the Reagents 10 to 8. Fields homered for the winning team . . . Baker took a triple on the losing side.

Atoms Win 44th

The final game of the week gave the Atoms win number four, as they took the Beanballs 11 to 10. Davis and Daws clipped four-baggers for the Atoms . . . Chapman had a long triple among the 13 hits.

League standings follow:

| Team | W | L |
|--------------------------|---|---|
| Atoms | 4 | 0 |
| Peons | 5 | 1 |
| Dispatching Rebs | 4 | 2 |
| Mets (ORGDP) | 4 | 2 |
| Bat Boys | 4 | 2 |
| Eagles | 4 | 2 |
| Teds | 3 | 1 |
| Gophers | 3 | 2 |
| Beanballs | 3 | 2 |
| Big Shops | 2 | 4 |
| Lucky Ten | 1 | 4 |
| K-25 Instruments (ORGDP) | 0 | 4 |
| Cherokees | 0 | 5 |
| Reagents | 0 | 5 |

tory . . . with more prizes than ever this year.

There'll be the usual cranking, tire-rolling, blindfolded driving, costuming and parts identification contests . . . even the women-folk get in on the act.

If vintage cars interest you, especially the kind that still run well, be sure to have Independence Day week-end for the big show in Maryville. The Fords and Packards will surely be there with their cars!
